A seder dinner for you but none of the work: Join us for a meaningful evening of spiritual awareness before the Passover holiday.

Why a Women's Seder?

Passover is the holiday of freedom. A Women's Seder is an opportunity to celebrate the significant role of women in the Biblical story of the Exodus while also viewing the Haggadah through a feminist perspective. The evening will be one of spiritual preparation for the holiday and an opportunity as women to relax as free people (without the work of cooking or running the Seder).
